Work Experience

Internet of things IOT at Business park

May, 2019 - sep, 2019

I worked with the team from my university from different majors and we made a medical device This device can organize all the medical processes from doctor to patients and also pharmacy \$ all of these options in one device.

Volunteer student at Hashemite University

sep, 2019 - oct, 2019

Work with Hashemite University teams to Guide the new students and help them in doing their registration at the University.

Education

Dart and Flutter development from Udemmy platform

July 2021 - Jan 2022

I learned all the concepts in the course from udemmy platform and I used the language in My graduation project at the university, we made a COVID APP that provided (maps for the nearest hospital, emergency calls, COVID initial test, daily check-ups, many advice, etc...)and we got the full mark.

Bachelor of Computer Science from Hashemite University

2018 - 2022

I am a computer science student at Hashemite University with an **Excellent GPA of 3.6**.

Full Stack Development from Udacity platform

march 2020 - sep 2020

I learned a lot of concepts front-end and back-end at the course from the Udacity platform and I finished the course and get the certificate, I made many projects for practicing purpose

High School Certificate from Madaba secondary school

In 2018

GPA 87.5
